Marine Biological Lab. Woods Hole, Mass. August 13, 1947

Prof. R.A. Brink
Dept. of Genetics
University of Wisconsin,
Madison, Wisconsin

Dear Dr. Brink:

Our plans are as follows: My wife and I will leave Boston Monday (Aug. 18) and hope to arrive in Chicago at 8 or 9 AM Tuesday. That should bring us to Madison early Tuesday afternoon. I suggest that I call you from the RR depot upon arrival; if you will not be available, perhaps your secretary could give us further instructions then.

The title for my seminar is "Genetic Recombination in $\underline{E} \cdot \underline{coli}$ ".

We look forward to meeting you.

Yours sincerely,

Joshua Lederberg
